HOW CAN I BE INVOLVED?

- By being a Stallholder
- Support by sharing online and talking up the event locally
- Attending on the day

Stallholders welcome

If you are a producer (cakes, wine, beverages, food, plants, etc.) or an agribusiness; so that is any aspect of commerce in farming and farming-related activities - production, processing and distribution of farm-based goods.

If you are a **supplier of**, i.e. solar, tractors or equipment, a stock agent, a clothing supplier to industry, or you sell your produce or product to any retailers in Murrindindi - you can have a regional supplier stall.

If you are a **community service, school, parent group or emergency services group** looking to fundraise or to support and talk up your organisation you can have a community group stall.

What can we expect?

So think of a community market vibe but catering to local produce and our agribusiness sector - a cross between a expo and a market.
